

This listing of claims will replace all prior versions in this application:

I. IN THE CLAIMS:

1-51 Canceled.

52. (Currently Amended) A system for distributing product incentives to consumers over a communication network, comprising:
a cooperative network site configured to store at least one of (i) manufacturer incentives to purchase one of a product and a service offered by a manufacturer and (ii) retailer incentives to purchase one of a product and a service offered by a retailer;
at least one of a manufacturer network site and a retailer network site coupled to said cooperative network site via said communication network; and
a consumer computer coupled to one of said manufacturer network site and retailer network site via said communication network,
wherein said cooperative network site is configured to transmit at least one of said manufacturer incentives and retailer incentives to said consumer over said communication network, in response to a consumer request made over said communication network from one of said manufacturer network site and retailer network site;

~~The system of claim 50,~~ wherein, in response to a query from said consumer made over said communication network from said manufacturer network site, said cooperative network site transmits a geographically limited list of retailers honoring incentives from said manufacturer and corresponding incentive data to said consumer via said manufacturer network site;

said consumer transmits incentive selection data selected from said incentive data to said cooperative network site via said manufacturer network site; and

said cooperative network site transmits incentives corresponding to said selection data to said consumer via said manufacturer network site.

53. (Previously Presented) The system of claim 52, wherein said cooperative network site transmits said geographically limited list of retailers based on a postal code provided by said consumer to said cooperative network site via said manufacturer network site.

54. (Currently Amended) A system for distributing product incentives to consumers over a communication network, comprising:

a cooperative network site configured to store at least one of (i) manufacturer incentives

to purchase one of a product and a service offered by a manufacturer and (ii) retailer incentives to purchase one of a product and a service offered by a retailer;

at least one of a manufacturer network site and a retailer network site coupled to said cooperative network site via said communication network; and

a consumer computer coupled to one of said manufacturer network site and retailer network site via said communication network,

wherein said cooperative network site is configured to transmit at least one of said manufacturer incentives and retailer incentives to said consumer over said communication network, in response to a consumer request made over said communication network from one of said manufacturer network site and retailer network site;

~~The system of claim 50,~~ wherein, in response to a query from said consumer made over said communication network from said retailer network site, said cooperative network site transmits incentive data for manufacturer offers available at said retailer to said consumer via said retailer network site;

said consumer transmits incentive selection data selected from said incentive data to said cooperative network site via said retailer network site; and

said cooperative network site transmits incentives corresponding to said selection data to said consumer via said retailer network site.

55. (Currently Amended) A system for distributing product incentives to consumers over a communication network, comprising:

a cooperative network site configured to store at least one of (i) manufacturer incentives to purchase one of a product and a service offered by a manufacturer and (ii) retailer incentives to purchase one of a product and a service offered by a retailer;

at least one of a manufacturer network site and a retailer network site coupled to said cooperative network site via said communication network; and

a consumer computer coupled to one of said manufacturer network site and retailer network site via said communication network,

wherein said cooperative network site is configured to transmit at least one of said manufacturer incentives and retailer incentives to said consumer over said communication network, in response to a consumer request made over said communication network from one of said manufacturer network site and retailer network site;

~~The system of claim 50,~~ wherein, in response to a query from said consumer made over said communication network from said retailer network site, said cooperative network site

transmits a consumer personal page including incentive data for manufacturer offers available at said retailer to said consumer via said retailer network site;

said consumer transmits incentive selection data selected from said incentive data to said cooperative network site via said retailer network site; and

said cooperative network site transmits incentives corresponding to said selection data to said consumer via said retailer network site.

56. (Currently Amended) A system for distributing product incentives to consumers over a communication network, comprising:

a cooperative network site configured to store at least one of (i) manufacturer incentives to purchase one of a product and a service offered by a manufacturer and (ii) retailer incentives to purchase one of a product and a service offered by a retailer;

at least one of a manufacturer network site and a retailer network site coupled to said cooperative network site via said communication network; and

a consumer computer coupled to one of said manufacturer network site and retailer network site via said communication network,

wherein said cooperative network site is configured to transmit at least one of said manufacturer incentives and retailer incentives to said consumer over said communication network, in response to a consumer request made over said communication network from one of said manufacturer network site and retailer network site;

~~The system of claim 50~~, wherein, in response to said consumer transmitting an identification code over said communication network from said retailer network site, said cooperative network site transmits incentive data for manufacturer offers available at said retailer to said consumer via said retailer network site, said incentive data is based on consumer specific data of said consumer associated with said identification code;

said consumer transmits incentive selection data selected from said incentive data to said cooperative network site via said retailer network site; and

said cooperative network site transmits incentives corresponding to said selection data to said consumer via said retailer network site.

57. (Previously Presented) The system of claim 56, wherein said incentive data is based on said consumer specific data comprising a shopping history of said consumer.

58. (Previously Presented) The system of claim 56, wherein said incentive data is based on said consumer specific data comprising demographic data of said consumer.

59. (Previously Presented) The system of claim 56, wherein said incentive data

is based on said consumer specific data comprising customer profile data of said consumer.

60-61 Cancelled.

62. (Currently Amended) A process for distributing product incentives to consumers over a communication network, comprising:

storing at least one of (i) manufacturer incentives to purchase one of a product and a service offered by a manufacturer and (ii) retailer incentives to purchase one of a product and a service offered by a retailer at a cooperative network site;

coupling at least one of a manufacturer network site and a retailer network site to said cooperative network site via said communication network;

coupling a consumer computer to one of said manufacturer network site and retailer network site via said communication network; and

transmitting from said cooperative network site at least one of said manufacturer incentives and retailer incentives to said consumer over said communication network, in response to a consumer request made over said communication network from one of said manufacturer network site and retailer network site;

~~The process of claim 60, further comprising:~~

transmitting from said cooperative network site a geographically limited list of retailers honoring incentives from said manufacturer and corresponding incentive data to said consumer via said manufacturer network site, in response to a query from said consumer made over said communication network from said manufacturer network site;

transmitting by said consumer incentive selection data selected from said incentive data to said cooperative network site via said manufacturer network site; and

transmitting from said cooperative network site incentives corresponding to said selection data to said consumer via said manufacturer network site.

63. (Previously Presented) The process of claim 62, further comprising:

transmitting from said cooperative network site said geographically limited list of retailers based on a postal code provided by said consumer to said cooperative network site via said manufacturer network site.

64. (Currently Amended) A process for distributing product incentives to consumers over a communication network, comprising:

storing at least one of (i) manufacturer incentives to purchase one of a product and a

service offered by a manufacturer and (ii) retailer incentives to purchase one of a product and a service offered by a retailer at a cooperative network site;

coupling at least one of a manufacturer network site and a retailer network site to said cooperative network site via said communication network;

coupling a consumer computer to one of said manufacturer network site and retailer network site via said communication network; and

transmitting from said cooperative network site at least one of said manufacturer incentives and retailer incentives to said consumer over said communication network, in response to a consumer request made over said communication network from one of said manufacturer network site and retailer network site;

~~The process of claim 60~~, further comprising:

transmitting from said cooperative network site incentive data for manufacturer offers available at said retailer to said consumer via said retailer network site, in response to a query from said consumer made over said communication network from said retailer network site;

transmitting by said consumer incentive selection data selected from said incentive data to said cooperative network site via said retailer network site; and

transmitting from said cooperative network site incentives corresponding to said selection data to said consumer via said retailer network site.

65. (Currently Amended) A process for distributing product incentives to consumers over a communication network, comprising:

storing at least one of (i) manufacturer incentives to purchase one of a product and a service offered by a manufacturer and (ii) retailer incentives to purchase one of a product and a service offered by a retailer at a cooperative network site;

coupling at least one of a manufacturer network site and a retailer network site to said cooperative network site via said communication network;

coupling a consumer computer to one of said manufacturer network site and retailer network site via said communication network; and

transmitting from said cooperative network site at least one of said manufacturer incentives and retailer incentives to said consumer over said communication network, in response to a consumer request made over said communication network from one of said manufacturer network site and retailer network site;

~~The process of claim 60~~, further comprising:

transmitting from said cooperative network site a consumer personal page including

incentive data for manufacturer offers available at said retailer to said consumer via said retailer network site, in response to a query from said consumer made over said communication network from said retailer network site;

transmitting by said consumer incentive selection data selected from said incentive data to said cooperative network site via said retailer network site; and

transmitting from said cooperative network site incentives corresponding to said selection data to said consumer via said retailer network site.

66. (Currently Amended) A process for distributing product incentives to consumers over a communication network, comprising:

storing at least one of (i) manufacturer incentives to purchase one of a product and a service offered by a manufacturer and (ii) retailer incentives to purchase one of a product and a service offered by a retailer at a cooperative network site;

coupling at least one of a manufacturer network site and a retailer network site to said cooperative network site via said communication network;

coupling a consumer computer to one of said manufacturer network site and retailer network site via said communication network; and

transmitting from said cooperative network site at least one of said manufacturer incentives and retailer incentives to said consumer over said communication network, in response to a consumer request made over said communication network from one of said manufacturer network site and retailer network site;

~~The process of claim 60, further comprising:~~

transmitting from said cooperative network site incentive data for manufacturer offers available at said retailer to said consumer via said retailer network site, in response to said consumer transmitting an identification code over said communication network from said retailer network site, and basing said incentive data on consumer specific data of said consumer associated with said identification code;

transmitting by said consumer incentive selection data selected from said incentive data to said cooperative network site via said retailer network site; and

transmitting from said cooperative network site incentives corresponding to said selection data to said consumer via said retailer network site.

67. (Previously Presented) The process of claim 66, further comprising:

basing said incentive data on said consumer specific data comprising a shopping history of said consumer.

68. (Previously Presented) The process of claim 66, further comprising:
basing said incentive data on said consumer specific data comprising demographic data of said consumer.

69. (Previously Presented) The process of claim 66, further comprising:
basing said incentive data on said consumer specific data comprising customer profile data of said consumer.

70-71 Cancelled.

72. (Currently Amended) A system for distributing product incentives to consumers over a communication network, comprising:

means for storing at least one of (i) manufacturer incentives to purchase one of a product and a service offered by a manufacturer and (ii) retailer incentives to purchase one of a product and a service offered by a retailer at a cooperative network site;

means for coupling at least one of a manufacturer network site and a retailer network site to said cooperative network site via said communication network;

means for coupling a consumer computer to one of said manufacturer network site and retailer network site via said communication network; and

means for transmitting from said cooperative network site at least one of said manufacturer incentives and retailer incentives to said consumer over said communication network, in response to a consumer request made over said communication network from one of said manufacturer network site and retailer network site;

~~The system of claim 70,~~ further comprising:

means for transmitting from said cooperative network site a geographically limited list of retailers honoring incentives from said manufacturer and corresponding incentive data to said consumer via said manufacturer network site, in response to a query from said consumer made over said communication network from said manufacturer network site;

means for transmitting by said consumer incentive selection data selected from said incentive data to said cooperative network site via said manufacturer network site; and

means for transmitting from said cooperative network site incentives corresponding to said selection data to said consumer via said manufacturer network site.

73. (Previously Presented) The system of claim 72, further comprising:

means for transmitting from said cooperative network site said geographically limited list

of retailers based on a postal code provided by said consumer to said cooperative network site via said manufacturer network site.

74. (Currently Amended) A system for distributing product incentives to consumers over a communication network, comprising:

means for storing at least one of (i) manufacturer incentives to purchase one of a product and a service offered by a manufacturer and (ii) retailer incentives to purchase one of a product and a service offered by a retailer at a cooperative network site;

means for coupling at least one of a manufacturer network site and a retailer network site to said cooperative network site via said communication network;

means for coupling a consumer computer to one of said manufacturer network site and retailer network site via said communication network; and

means for transmitting from said cooperative network site at least one of said manufacturer incentives and retailer incentives to said consumer over said communication network, in response to a consumer request made over said communication network from one of said manufacturer network site and retailer network site;

~~The system of claim 70, further comprising:~~

means for transmitting from said cooperative network site incentive data for manufacturer offers available at said retailer to said consumer via said retailer network site, in response to a query from said consumer made over said communication network from said retailer network site;

means for transmitting by said consumer incentive selection data selected from said incentive data to said cooperative network site via said retailer network site; and

means for transmitting from said cooperative network site incentives corresponding to said selection data to said consumer via said retailer network site.

75. (Currently Amended) A system for distributing product incentives to consumers over a communication network, comprising:

means for storing at least one of (i) manufacturer incentives to purchase one of a product and a service offered by a manufacturer and (ii) retailer incentives to purchase one of a product and a service offered by a retailer at a cooperative network site;

means for coupling at least one of a manufacturer network site and a retailer network site to said cooperative network site via said communication network;

means for coupling a consumer computer to one of said manufacturer network site and retailer network site via said communication network; and

means for transmitting from said cooperative network site at least one of said manufacturer incentives and retailer incentives to said consumer over said communication network, in response to a consumer request made over said communication network from one of said manufacturer network site and retailer network site;

~~The system of claim 70~~, further comprising:

means for transmitting from said cooperative network site a consumer personal page including incentive data for manufacturer offers available at said retailer to said consumer via said retailer network site, in response to a query from said consumer made over said communication network from said retailer network site;

means for transmitting by said consumer incentive selection data selected from said incentive data to said cooperative network site via said retailer network site; and

means for transmitting from said cooperative network site incentives corresponding to said selection data to said consumer via said retailer network site.

76. (Currently Amended) A system for distributing product incentives to consumers over a communication network, comprising:

means for storing at least one of (i) manufacturer incentives to purchase one of a product and a service offered by a manufacturer and (ii) retailer incentives to purchase one of a product and a service offered by a retailer at a cooperative network site;

means for coupling at least one of a manufacturer network site and a retailer network site to said cooperative network site via said communication network;

means for coupling a consumer computer to one of said manufacturer network site and retailer network site via said communication network; and

means for transmitting from said cooperative network site at least one of said manufacturer incentives and retailer incentives to said consumer over said communication network, in response to a consumer request made over said communication network from one of said manufacturer network site and retailer network site;

~~The system of claim 70~~, further comprising:

means for transmitting from said cooperative network site incentive data for manufacturer offers available at said retailer to said consumer via said retailer network site, in response to said consumer transmitting an identification code over said communication network from said retailer network site, and basing said incentive data on consumer specific data of said consumer associated with said identification code;

means for transmitting by said consumer incentive selection data selected from said

incentive data to said cooperative network site via said retailer network site; and

means for transmitting from said cooperative network site incentives corresponding to said selection data to said consumer via said retailer network site.

77. (Previously Presented) The system of claim 76, further comprising:
means for basing said incentive data on said consumer specific data comprising a shopping history of said consumer.

78. (Previously Presented) The system of claim 76, further comprising:
means for basing said incentive data on said consumer specific data comprising demographic data of said consumer.

79. (Previously Presented) The system of claim 76, further comprising:
means for basing said incentive data on said consumer specific data comprising customer profile data of said consumer.

80-81 Cancelled.

82. (Currently Amended) A computer program product comprising a computer storage medium having a computer program embedded in said computer storage medium for causing a computer to distribute product incentives to consumers over a communication network, said computer program performing the steps of:

storing at least one of (i) manufacturer incentives to purchase one of a product and a service offered by a manufacturer and (ii) retailer incentives to purchase one of a product and a service offered by a retailer at a cooperative network site;

coupling at least one of a manufacturer network site and a retailer network site to said cooperative network site via said communication network;

coupling a consumer computer to one of said manufacturer network site and retailer network site via said communication network; and

transmitting from said cooperative network site at least one of said manufacturer incentives and retailer incentives to said consumer over said communication network, in response to a consumer request made over said communication network from one of said manufacturer network site and retailer network site;

~~The computer program product of claim 80;~~ said computer program further performing the steps of:

transmitting from said cooperative network site a geographically limited list of retailers

honoring incentives from said manufacturer and corresponding incentive data to said consumer via said manufacturer network site, in response to a query from said consumer made over said communication network from said manufacturer network site;

transmitting by said consumer incentive selection data selected from said incentive data to said cooperative network site via said manufacturer network site; and

transmitting from said cooperative network site incentives corresponding to said selection data to said consumer via said manufacturer network site.

83. (Previously Presented) The computer program product of claim 82, said computer program further performing the steps of:

transmitting from said cooperative network site said geographically limited list of retailers based on a postal code provided by said consumer to said cooperative network site via said manufacturer network site.

84. (Currently Amended) A computer program product comprising a computer storage medium having a computer program embedded in said computer storage medium for causing a computer to distribute product incentives to consumers over a communication network, said computer program performing the steps of:

storing at least one of (i) manufacturer incentives to purchase one of a product and a service offered by a manufacturer and (ii) retailer incentives to purchase one of a product and a service offered by a retailer at a cooperative network site;

coupling at least one of a manufacturer network site and a retailer network site to said cooperative network site via said communication network;

coupling a consumer computer to one of said manufacturer network site and retailer network site via said communication network; and

transmitting from said cooperative network site at least one of said manufacturer incentives and retailer incentives to said consumer over said communication network, in response to a consumer request made over said communication network from one of said manufacturer network site and retailer network site;

~~The computer program product of claim 80;~~ said computer program further performing the steps of:

transmitting from said cooperative network site incentive data for manufacturer offers available at said retailer to said consumer via said retailer network site, in response to a query from said consumer made over said communication network from said retailer network site;

transmitting by said consumer incentive selection data selected from said incentive data

to said cooperative network site via said retailer network site; and

transmitting from said cooperative network site incentives corresponding to said selection data to said consumer via said retailer network site.

85. (Currently Amended) A computer program product comprising a computer storage medium having a computer program embedded in said computer storage medium for causing a computer to distribute product incentives to consumers over a communication network, said computer program performing the steps of:

storing at least one of (i) manufacturer incentives to purchase one of a product and a service offered by a manufacturer and (ii) retailer incentives to purchase one of a product and a service offered by a retailer at a cooperative network site;

coupling at least one of a manufacturer network site and a retailer network site to said cooperative network site via said communication network;

coupling a consumer computer to one of said manufacturer network site and retailer network site via said communication network; and

transmitting from said cooperative network site at least one of said manufacturer incentives and retailer incentives to said consumer over said communication network, in response to a consumer request made over said communication network from one of said manufacturer network site and retailer network site;

~~The computer program product of claim 80,~~ said computer program further performing the steps of:

transmitting from said cooperative network site a consumer personal page including incentive data for manufacturer offers available at said retailer to said consumer via said retailer network site, in response to a query from said consumer made over said communication network from said retailer network site;

transmitting by said consumer incentive selection data selected from said incentive data to said cooperative network site via said retailer network site; and

transmitting from said cooperative network site incentives corresponding to said selection data to said consumer via said retailer network site.

86. (Currently Amended) A computer program product comprising a computer storage medium having a computer program embedded in said computer storage medium for causing a computer to distribute product incentives to consumers over a communication network, said computer program performing the steps of:

storing at least one of (i) manufacturer incentives to purchase one of a product and a

service offered by a manufacturer and (ii) retailer incentives to purchase one of a product and a service offered by a retailer at a cooperative network site;

coupling at least one of a manufacturer network site and a retailer network site to said cooperative network site via said communication network;

coupling a consumer computer to one of said manufacturer network site and retailer network site via said communication network; and

transmitting from said cooperative network site at least one of said manufacturer incentives and retailer incentives to said consumer over said communication network, in response to a consumer request made over said communication network from one of said manufacturer network site and retailer network site;

~~The computer program product of claim 80,~~ said computer program further performing the steps of:

transmitting from said cooperative network site incentive data for manufacturer offers available at said retailer to said consumer via said retailer network site, in response to said consumer transmitting an identification code over said communication network from said retailer network site, and basing said incentive data on consumer specific data of said consumer associated with said identification code;

transmitting by said consumer incentive selection data selected from said incentive data to said cooperative network site via said retailer network site; and

transmitting from said cooperative network site incentives corresponding to said selection data to said consumer via said retailer network site.

87. (Previously Presented) The computer program product of claim 86, said computer program further performing the steps of:

basing said incentive data on said consumer specific data comprising a shopping history of said consumer.

88. (Previously Presented) The computer program product of claim 86, said computer program further performing the steps of:

basing said incentive data on said consumer specific data comprising demographic data of said consumer.

89. (Previously Presented) The computer program product of claim 86, said computer program further performing the steps of:

basing said incentive data on said consumer specific data comprising customer profile data of said consumer.
